

Instruction

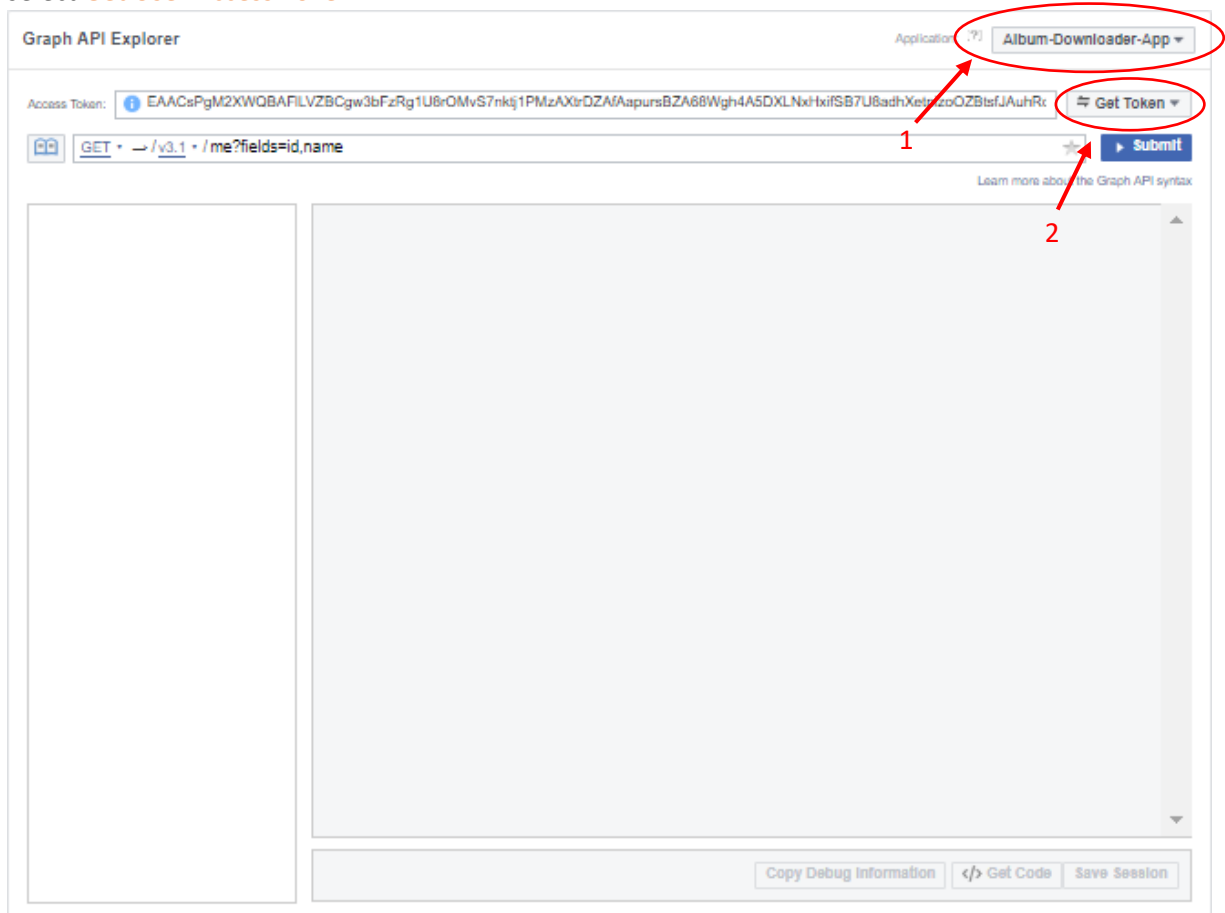

Facebook-Album-Downloader

Facebook-Album-Downloader cannot directly access your albums. To provide accessibility you need to perform following steps.

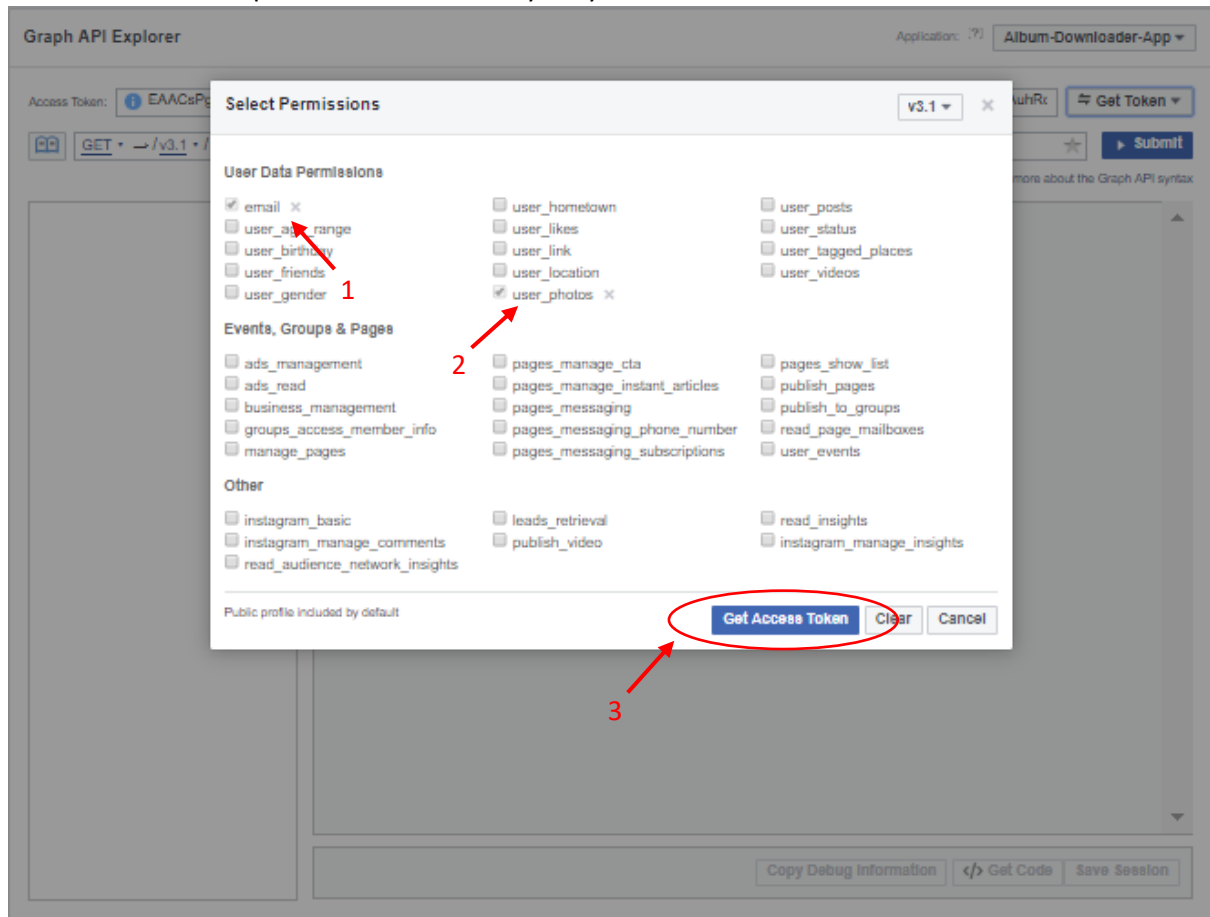

1. First, you need to confirm the invitation of **Album-Downloader-App** app from your Facebook.

2. Open the <https://developers.facebook.com/tools/explorer/> and select the **Album-Downloader-App** Application from the top-right drop-down menu and click get token below from the application menu and select **Get User Access Token**.

- That will open the Select Permission popup and choose the **user_photos** checkbox and click on the **Get Access Token**. It will provide the accessibility for your Facebook album

- Now, Refresh the page of Facebook Album Downloader or try again.
